Uxbridge. Jan 26th 1879

Dr. Engelman.

Dear Sir; Very likely you have received the Un. paper, ere this, containing the record of the death of Dr. J. N. Robbins of this place, & our family of which he had been a loved & honored member, for more than forty years; & the vacancy made by his removal to "the better land" is such as can never be filled, by human agency. His life & character, were of no ordinary stamp, tho his modesty often put him in the shade, while less planets revelled in brighter sunlight. But we knew, & loved him sincerely to the end & those last days of earthly pilgrimage, often replete with suffering, but borne with patient resignation have left a lasting memory in our aching hearts.

I will not repeat what you already know, but if there are any plants here, sent by yourself, that you would like returned, please send word to that effect.

The Dr. thought very likely a package marked Sweets should be returned, but was unable to write very much for several weeks preceding his passing away. But Calmly & intelligently made every arrangement in his power, in regard to his worldly affairs, having settled his religious belief long time ago, & grown rich in Spiritual knowledge, which he desires to be openly avowed. I enclose a card that you may send any request that pleases you.

Please address

Mrs. S. M. H. Perry.

Respectfully yrs.
